STOP PRESS

ARC Multi-metal Services can now offer a high definition plasma cutting service from our new Bacup premises.

ARC has invested in the most up-to-date technology using the world's first 260 amp precision plasma cutting system. Using an advanced CAD/CAM drawing package we can offer a full range of simple or complex shapes, which can be nested together to obtain the maximum savings to your company. We specialise in Stainless Steel and Mild Steel in whatever thickness or specification you require.

We believe our highly experienced friendly staff can offer a service second-to-none. Offering high cut quality, precision, clean, dross free profiles at the most competitive prices possible together with a quick delivery time. SERVICE & DELIVERY

Our attitude to service and quality are, and will remain, uppermost in the ARC Multi-Metal Services philosophy. We can deliver on our own transport or by carrier giving you a fast, efficient and reliable service.
